MANAGED
COMMUNICATIONS
SERVICE PROVIDER

Unshakeable Cybersecurity. Reliable,
Always - Available Network.

We are Netpluz

Netpluz is a transforming Managed Communications Service Provider that helps clients become more agile by simplifying their Information and Communications Technology (ICT) needs.

With humble beginnings in 2015 serving business internet connectivity, acquisition of Mediaring business assets and merger of Y5Zone Singapore in 2016, Netpluz has evolved from an internet service provider to providing Managed Data, Voice, Video and Cybersecurity services to over 2000 clients over a single, converged network with uncompromising availability, scalability and service standards.

Vision

To be the top Managed Communications Service Provider in Asia Pacific.

Mission

To simplify and satisfy communication needs of our clients through the delivery of high quality managed data, voice and video services over a single, converged network.
